

Dear Aiga

AL AMIN MOHAMMED SAID Secretary of **SHABIA** is critically ill

It is now nearly a month since he arrived in UAE. It is believed he is being cared for heart attack in a Hospital. He was so lucky to be near Cuban doctors in Asmara in which they helped him reach UAE – Abu Dhab

He is now in one of the government highly secured hospitals in Abu Dhabi. On top of that no Eritreans except few are allowed to see him. Six Security forces of Eritrea are standing 24 hours on the side of him

Except for his daughter from his first marriage who came to see him from Canada and his brother and the son of his brother no one from outside has been allowed to visit him. His second wife is now in Dubai – Abu-Dhabi. To the surprise of all Eritreans in UAE, Diplomats of Dubai consulate and embassy in Abu Dhabi are not allowed to visit him except the Ambassador

It is believed that he had a heart surgery and he is seriously ill what triggered his illness is a mystery and judging from the high security around him there is high probability it is not a natural cause
